DETAILED ACTION

Claim Objections

1. Claims 1-23 are objected to because of the following informalities: reflectivity in this context is inappropriate. Examiner suggests reflectivity to be changed to emission to better represent the actual process. Examiner understands that reflectivity does not involve the change of wavelength. For the purpose of examination, reflectivity is interpreted as emission. Appropriate correction is required which includes the proper modification of the specification.

Allowable Subject Matter

2. Claims 1-23 are allowed. The following is an examiner's statement of reasons for allowance: Prior art does not disclose the comparing the detected reflectivity with said reference reflectivity to detect whether fixer or ink is present at said portion of said media by irradiating the fluorescent print media rather having a fluorescent ink.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Uhling (U.S. Patent 6,028,320) discloses a method of detecting the presence of fixer or ink on a print media, said media including a fluorescent substance (the

Art Unit: 2878

fluorescent mark) comprising the step of: irradiating said media at least at a first wavelength and causing said substance to fluoresce to produce radiation at least at a second wavelength different from said first wavelength; detecting the reflectivity of a portion of said media (the florescent mark) at said second wavelength; providing a reference reflectivity; and comparing said detected reflectivity with said reference reflectivity to dtect whether fixer or ink is present at said portion of said media (Col. 8, Line 19-26).

4. This application is in condition for allowance except for the following formal matters:

Claim objection should be addressed by the applicant in order to meet the condition for allowance.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
